

Living Together, the Reconciliation of the Human Family

December 30 and 31, 2017, Mimosas Resort Cannes

Presentation

International Conference in support of the “International Day of Living Together”

Increasingly, world events demonstrate the urgency for humanity to develop a culture of Peace and learn how to live and act together.

In connection with the debate initiated by the 72nd General Assembly of the United Nations on the resolution tabled at its initiative for the proclamation of the International Day of Living Together at the United Nations, AISA International NGO is organizing a Conference on the theme “**Living Together, the Reconciliation of the Human Family**” on December 30 and 31, 2017 at the Mimosas Resort in Cannes-Mandelieu as part of its annual congress.

It will be preceded by a seminar for young people, entitled “**Giving a Soul to Living together, the future in common**”, from December 26 to 29, 2017 articulated around four workshops: Ten Keys to a Culture of Peace, the Spiritual Interpretation of the dogma of Islam, META: an Ethical and Alternative Management method and the Seventeen Sustainable Development Goals (SDG) of the United Nations in order to enable them to build their future with each other and not against each other.

This Conference will present a synthesis of AISA International NGO’s work on the four themes of the Paris Declaration, May 19, 2017 including the creation of a Synergy Network around the 17 SDG of the United Nations. How can they help us recognize the unity of humanity as a living, legal, social and political entity, responsible for regulating the world for the benefit of all? The competition of the pyramidal vision is replaced by cooperation, destructive individualism is replaced by altruism, constructive synergy and generators of benefits, a collective intelligence fostering shared knowledge.

The Conference will also feature two round tables moderated by leading international figures, academics, politicians, journalists, educators, jurists and spiritual leaders.
