PRESS RELEASE

A Call of Conscience for Responsibility and Peace

18 June 2025

The deadly conflict between Israel and Iran marks the beginning of a period of uncertainty, the consequences of which—political, human, and material—are impossible to predict. For 35 years, ongoing tensions in the Near and Middle East have trapped entire generations in the spiral of conflict and war. Once again, humanity finds itself on the brink of a major tragedy. In this situation, a crucial question arises: ***What future do we want to offer those who will build the world of tomorrow?***

Three paths lie before us:

1. **The path of self-destruction:** the nuclear threat still looms, endangering the very existence of our civilization.
2. **The path of indifference:** turning a blind eye and letting climate and humanitarian crises drive us past the point of no return.
3. **The path of peace:** making Peace the foundation of our governance systems and societies.

AISA International NGO, faithful to its founding values of peace and reconciliation, issues a solemn call:

- To favor dialogue over confrontation
- To choose mediation to heal the deep wounds of a suffering humanity

History teaches us that force alone has never brought lasting solutions to conflict. Violence and exclusion only lead to ruin and despair.
Do we really want to leave our children a devastated world, ruled by the law of the strongest, where international law is ignored?
Or will we choose to invest in Living Together in Peace, to educate our children in a Culture of Peace, and to build a shared future based on solidarity and mutual respect?

AISA International NGO, member of ECOSOC, has been actively working for peace since its creation.

- On 8 December 2017, it initiated the unanimous adoption by the 193 UN Member States of Resolution 72/130, proclaiming 16 May as the ***International Day of Living Together in Peace***. Read the resolution
- On 16 May 2024, the ***Geneva Declaration for Education*** in a Culture of Peace, drafted at the Palais des Nations, was proclaimed during the 7th edition of this Day. It brings together all those working to integrate the Culture of Peace into educational programs.
  Discover the Declaration
- During the 43rd World Scout Conference (WOSM) in Cairo on 22 August 2024, the ***Resolution on Living Together in Peace*** was adopted (Resolution 2024-10), marking a historic step toward universal peace education. Learn more

Placing peace at the heart of education and learning is a sacred duty. We have a responsibility to place our knowledge, resources, and technologies at the service of the common good and the future. Let us act together for peace, justice, dignity, and living together.
Each of us is a cell in the same body: **HUMANITY**.
