CONTINUOUS AND CONTINUALLY-RENEWED ACTION

From December 27, 2025 to January 1, 2026, AISA International NGO will be hosting an exceptional seminar entitled "Fiftieth Anniversary - 50 Years of Commitment to Peace" at the Golden Carthage Hotel in Tunis. This unique event will bring together nearly 800 participants from countries around the world. It symbolizes both a commemorative celebration and a historical journey, as well as a dynamic force for hope, resolutely focused on peace and the future.

1975 : Transmission of a spiritual lineage

In April 1975 Sheikh Hadj Mohammed el-Mehdi Bentounes, father of Sheikh Khaled Bentounes, now Honorary President of AISA International NGO, passed away at the age of 47. Fifty years ago, the spiritual lineage of the Tariqa Alâwiyya-Darqâwiyya-Shâdhiliyya was thus transmitted, following the decision of the council of elders to entrust its leadership to the current Sheikh. This anniversary gives this seminar a special significance and highlights the living continuity of this spiritual tradition, which has been renewed from Sheikh to Sheikh up to the 46th Sheikh in office today.

A path towards peace

For half a century, Sheikh Khaled Bentounes has worked tirelessly for peace and the preservation and transmission of this thousand-year-old heritage of Muslim spirituality. The actions that mark this journey bear witness to the vitality of the thought and message of Sheikh al-Alawî (1874-1934), the eponymous founder of this Sufi Order.

The Alawiyya Sufi Order enjoys major international recognition:

- In 2013, it was recognized by UNESCO at its 37th General Conference as a "school of tolerance and interreligious conviviality".
- In December 2017, the United Nations General Assembly adopted Resolution RES/72/130 proclaiming May 16 as International Day of Living Together in Peace (IDLTP), an initiative led by Sheikh Khaled Bentounes with the diplomatic support of Algeria, and adopted unanimously by the 193 member-states of the UN.
- In March 2022, the Parliamentary Assembly of the Mediterranean awarded the PAM Prize for Interfaith Dialogue in recognition of its commitment to promoting peace, dialogue, tolerance, and understanding between religions and cultures.
- In May 2024, during the 7th edition of the IDLTP, the Geneva Declaration on Education for a Culture of Peace, drafted at the Palace of Nations, was proclaimed.

A vector of hope

On the occasion of this 50th anniversary, two major projects, developed over several years using artificial intelligence, will be presented to the public:

- "Placing peace at the heart of teaching and learning," aimed at promoting education for a culture of peace.
- Making the thought and work of Sheikh al-Alâwi, as well as the spiritual heritage of Sufism through the centuries, accessible to one and all in contemporary society.

AISA International NGO thus proposes a forward-looking orientation, positively promoting the potential of AI in the fields of spirituality, education, and cultural heritage, working for and with future generations, the universal heirs to this precious heritage.

WORKSHOPS

ECP'AI serving the cause of Education for a Culture of Peace (ECP)

ECP'AI uses Artificial Intelligence as a pedagogical tool to transform information into living knowledge and to help place peace at the heart of education and learning.
Rooted in the fundamental mission of ECP, this project mobilizes the most advanced technologies to design AI tools which are clearly focused on non-violence, dignity, responsibility and cooperation.

It is implemented through four complementary workshops:

- Structuring ECP'AI: economic model, governance and partnerships;
- Disseminating the message of ECP'AI: communication, marketing and pleading the cause;
- Creating the tools of ECP'AI: development of an AI system which serves peace;
- Experimenting with ECP'AI: pedagogical model and testing of real data.

Co-Creating Peace: UnityBot and spiritual transmission

UnityBot is passing yet another threshold, from technological innovation to shared experience. First presented in Sarajevo in 2024, then in Almere (The Netherlands) in 2025, in Tunis it will have become a veritable pedagogical and spiritual companion, facilitating dialogue, reflection, and the transmission of the principles of peace.

Designed to be a sort of living memory, UnityBot facilitates understanding and is the embodiment of the human and spiritual values enshrined in the age-old Sufi tradition, available to us in our daily lives. Through the inter-generational workshops - bringing together children, youths and adults - UnityBot will guide us on an adventure of discovery, action and transmission: learning to live in peace with oneself, with others and with the environment.

Each interaction strengthens the AI tool as well as the participants, in a dynamic process of co-creation and of transformation serving the culture of "We".

1975

Investiture of Sheikh Khaled Bentounes

It was in 1975 that Sheikh Khaled Bentounes received his investiture as spiritual guide of the Alawiyya Sufi Order in Mostaganem, Algeria. He thus takes his place in the continuity of a lineage of 45 earlier Sufi masters who strove to transmit a living spirituality, rooted in the quest for self-knowledge, fraternity and universal peace. From the earliest years of his teaching, he has introduced a new impetus, characterized by openness, dialogue and sharing between cultures and traditions.

Health workshops

These workshops will be led by members of AISA NGO's Health Committee. Each workshop offers a unique approach focused on breathing, relaxation, and well-being, and they are open to children, teenagers, and adults.

"**Let's breathe together with the sea**" is open to everyone (children under 11 must be accompanied by a parent). This workshop invites participants to practice breathing together in motion, guided by the rhythm of the waves. It aims to harmonize the body as a whole and restore unity with the elements of the surrounding natural environment.

"**The Body: Model of Unity and Living Together,**" intended for participants aged 15 and older, explores the physiological mechanisms that illustrate the connection between the body, humanity, and the environment. As part of a sharing circle, participants will be invited to discover the sacredness and energy of the body, renewing their perception and deepening their awareness of it.

"**Body Awareness**," also for ages 15 and up, combines reflection and meditation on the body, perceived as an inner master and a guide to presence and balance.

Finally, two workshops specially designed for younger children complete this approach:

- "**Breathing with trees**" (for ages 3 to 6) offers a moment of peace and tranquility close to nature, through breathing games and connecting with trees (sylvan therapy).
- "**Feel better through breathing and relaxation**" (for ages 7 to 14) offers a fun space to explore the benefits of conscious breathing, relaxation, and reconnecting with oneself and one's environment.

Participants are invited to come in casual or athletic clothing that is comfortable and conducive to relaxation.

Youth seminars

Seminars on spiritual education for young people are organized in Switzerland, France, Germany, Belgium, The Netherlands, Algeria and Morocco. These meetings, which are co-educational, bring together young women and men who are seeking meaning and who wish to discover the universal dimension of Sufism through its spiritual teachings.

Under the impetus of Sheikh Khaled Bentounes, the Alawiyya Sufi Order has taken its rightful place as a distinguished forum for intercultural and interreligious dialogue, fostering communication and mutual comprehension.

HISTORICAL EXHIBITION OF THE ALÂWIYYA SUFI ORDER

Launch of a website project

For over a century, the Alâwiyya-Darqâwiyya-Shâdhiliyya Sufi Order has embodied a living spirituality, rooted in the quest for meaning and a commitment to serving humanity. Its universal message and the wisdom of its spiritual masters have enabled this tradition to endure through the ages with remarkable adaptability and widespread influence.

From the visionary founder Sheikh Ahmed Ben Mustafa al-Alâwi (1874-1934) to the current leader Sheikh Khaled Bentounes (since 1975), via Sheikh el-Bûzidî (1824-1909), Sheikh Adda Bentounes (1898-1952) and Sheikh Hadj el-Mehdi Bentounes (1928-1975), each Master has transmitted a living breath of spirituality, combining interiority and action to respond to the challenges of his time.

This digital exhibition offers a journey into the heart of a tradition that is constantly evolving, always in fruitful dialogue with its time. Rare archives, testimonials, iconography, works, and concrete initiatives punctuate a lively overview of the origins and major stages of the Sufi Way, while highlighting the legacy of the Masters who shaped it.

This tapestry of memory, transmission, and vision also reveals the imprint of half a century of guidance from the current Master, Sheikh Khaled Bentounes, whose teachings call for unity among the human family and shared responsibility for building a world of peace, brotherhood, and hope.

At once interactive and educational, this exhibition is aimed at researchers and the general public alike, anyone who wishes to discover a spiritual path where self-knowledge is combined with openness to others in a shared call for awareness, brotherhood, and inner peace.

For an Islam of Peace
A Shared Future, or the Path of Hope

In 2000 an international Colloquium entitled "For an Islam of Peace" was hosted by UNESCO in Paris, affirming the vision of a spiritual Islam, humanistic and supportive of peace in the face of self-isolation and the violence fostered by political or religious extremism.

2000

50th ANNIVERSARY OF A WITNESS AND MARTYR

Sheikh Hadj el-Mehdi Bentounes, 45th spiritual guide of the Alâwiyya-Darqâwiyya-Shâdhiliyya Sufi Order, is a unique figure who made it possible for the teachings of the Order not only to survive but to thrive during the tumultuous period of decolonization in Algeria in the 20th century, a period which saw the gradual loss of the spiritual values and cultural references of Islam.

In homage to this multifaceted man of peace, called to his Maker in 1975 after the trials and tribulations of defamation, imprisonment and exile, the seminar in Tunis will celebrate the memory and legacy of a Guide whose teachings, so deeply rooted in his troubled times, allied living spirituality and sincere commitment. Through his actions - diplomatic, social, humanitarian and resistance-related - he found a way to touch the hearts and the daily lives of the men and women of his time.

SELECTED WORKS

The book entitled "The Pole", or Al-Qutb in Arabic, by Manuel Chabry, is a work at once intellectual, spiritual and historical, in which academic rigor and interior experience are intertwined.

It retraces the story of the struggle undertaken by the Masters ("Poles") of the Tariqa Alâwiyya-Darqâwiyya-Shâdhiliyya to preserve its spiritual heritage and Muslim identity in the face of colonial domination, from the time of the founding "Poles" in Algeria and the Maghreb right up to its dissemination in the Machrek and in the Western world.

This work analyzes the evolution of the Order - as it grew from an individual and local scale to universal influence - by focusing on three major figures in Modern Sufism. The Arabic translation of this work restores its original cultural and spiritual orientation, all the while facilitating access to researchers and all those who are interested in the Sufi heritage and the social and cultural realities of the period.

Al-Qutb invites us to rediscover the Sufism of the Maghreb in all its human and spiritual depth, and to enter into a dialogue with memory, history and the inner experience.

2009

Centenary of the Alawiyya Sufi Order - Sowing Hope

In 2009, the celebration of the Centenary of the Alawiyya Sufi Order in Mostaganem paid tribute to a century of transmission, teaching, and spiritual influence.

Inspired by memory and history, as well as the concerns of the 21st century, it addressed the themes of the Earth, Education, Communication, Globalization, the Quran and Spirituality, to turn towards action and the future.

The ***Diwan of the Lovers of the Beloved***, published under the spiritual guidance of Sheikh Khaled Bentounes, embodies a living synthesis between Sufi heritage and contemporary creation. Marking 50 years of his spiritual leadership, this majestic work brings together the mystical poems of Sheikh Mohammed Ben el-Habib el-Bûzidî, Sheikh Ahmed Ben Mustafa al-Alawî, and Sheikh Adda Bentounes, weaving a luminous continuity at the heart of the Alâwiyya-Darqâwiyya-Shâdhiliyya path.

Made up of more than three thousand verses, this Diwan celebrates divine love and prophetic presence with rare poetic and spiritual intensity. It offers more than just an anthology: it is an inner experience, praise in the form of verse, and meditation punctuated by the breath of dhikr (invocation, praise).

Illuminated by exceptional Arabic calligraphy and accompanied by audio interpretations, an interactive website accessible via QR codes, and a dedicated mobile app, the book combines intangible immemorial heritage with modern digital innovation. Presented at the seminar, it pays tribute to the Masters of Tradition while making a contemporary appeal: to revive, here and now, the quest for love and beauty in a world searching for meaning.

Visit to the mausoleum of Abû l-Hassan al-Shâdhilî

Founder of the Shâdhiliyya Sufi Order, Abû l-Hassan al-Shâdhilî (1197–1258), known in the Maghreb as Sidi Belhassen Chedli, is one of the founding Masters of the Silsila (spiritual chain) of the Alâwiyya-Darqâwiyya-Shâdhiliyya Sufi Order. The visit to his mausoleum during this seminar thus takes on a particularly symbolic dimension.

A disciple of the spiritual Master Abd al-Salâm ibn Mashîsh, he settled in Tunis where he trained many disciples and had a profound impact on the spiritual life of the Maghreb.

His place of prayer and retreat, located on Mount al-Jallâz, has become a major site of piety and remembrance. His presence is attested to by the tombs of his 40 companions, whom he left behind as guardians and transmitters of his spiritual legacy, and by the cave of al-Jallâz, above which a prayer hall and a center for retreat and gathering has been built, which has been used continuously by the Shâdhiliyya brotherhood to this day.

An emblematic figure of Sufism, Abû l-Hassan al-Shâdhilî embodies the meeting between the spiritual traditions of the Maghreb and Machrek, and his legacy continues to inspire generations of believers throughout the Muslim world.

2013

Recognition by UNESCO of the Alawiyya Sufi Order

In 2013, the Alawiyya Sufi Order was recognized by UNESCO as a "school of tolerance and interreligious conviviality" at its 37th General Conference, thus honoring the Order's exceptional contribution to intercultural dialogue. This recognition was celebrated at UNESCO Headquarters (Paris) on September 28-29, 2015, during the international symposium "Spiritual Islam and Contemporary Challenges."

A RICH AND VIBRANT HERITAGE

The ADLANIA Foundation works to preserve and transmit the spiritual branch of Islam, known as Sufism.

FONDATION ADLANIA

Its mission is to shed light on the present, thanks to wisdom passed down through the ages, and to offer a lively and contemporary interpretation of a universal message that has been preserved for more than fourteen centuries. Open to all - the general public, researchers, museums, and cultural institutions - it makes this heritage accessible and alive.

Created in 2014 by Sheikh Khaled Bentounes in the heart of the Swiss Alps, the ADLANIA Foundation is a space dedicated to culture, spirituality, and the preservation of the tangible and intangible heritage of the Sufi tradition and, more broadly, of Islamic civilization.

It preserves one of the largest private archives dedicated to this heritage and is actively committed to the Culture of Peace and intercultural and interreligious dialogue.

By reviving the beauty and depth of spiritual Islam, the ADLANIA Foundation acts as a bridge between civilizations, offering humanity a universal heritage that brings harmony and hope.

"The Breath of Symbols"

Sheikh Khaled Bentounes and the hidden meaning of Sufi artifacts (46 min)

In this film, Sheikh Khaled Bentounes offers unique insight into emblematic objects from Islamic tradition, revealing their profound spiritual significance.

2014

International Women's Congress – "Women's Voices"

Remaining true to his commitment to human dignity and gender equality, Sheikh Khaled Bentounes launched the International Women's Congress in 2014 - Women's Voices - in Oran (Algeria), bringing together more than 3,000 delegates, women and men from around the world, in the presence of the Special Representative of the United Nations Secretary-General, Ms. Leila Zerrougui, and the Minister of National Solidarity, Ms. Mounia Meslem.

On Spiritual Paths – Episode I: "An Inner Calling" (52 min)

The episode "An Inner Calling," from the documentary series "On Spiritual Paths," is dedicated to Sheikh Khaled Bentounes, a major figure in contemporary Sufism.

Filmed in Le Bar-sur-Loup in the south of France in the form of an interview, it traces the Sheikh's spiritual journey, from his childhood in Mostaganem frequenting the Zawiya, to his learning of the Quran and the birth of his spiritual vocation.

The film explores the foundations of the Sufi path, in particular Dhikr, the practice of remembering God in everyday life.

Produced by a team close to filmmaker Arnaud Desjardins, the series highlights living spiritual traditions and their contemporary guides.

2017

Adoption of the IDLTP by the UN

On December 8, 2017, the UN General Assembly adopted Resolution RES/72/130 proclaiming May 16 as the International Day of Living Together in Peace (IDLTP), an initiative led by Sheikh Khaled Bentounes with the diplomatic support of Algeria and adopted unanimously by the 193 Member-States. Sheikh Khaled Bentounes' commitment to peace was thus recognized worldwide.

EVENING EVENTS

The El Amel Ensemble from the Djanatu al Arif Foundation

Mediterranean Center for Sustainable Development

(Mostaganem, Algeria)

The El Amel Ensemble will host an exceptional musical evening. Inspired by Diwân Ouchak El Mahboub, this creation pays tribute to the spiritual and poetic heritage passed down by the Sufi Masters of the Alâwiyya-Darqâwiyya-Shâdhiliyya path.

An artistic performance in five stages (introduction and evocation of the four Masters of the path) where Sufi poetry, Andalusian music, and the spiritual song "Samaâ" come together in an immersive staging combining narration, calligraphy, light, and sound archives.

This evening offers an initiatory journey, celebrating spiritual beauty, living transmission, and the universality of the message of peace.

30 DECEMBER 2025

Placing Peace at the Heart of Education

In 2024, the Geneva Declaration on Education for a Culture of Peace, proclaimed at the Palace of Nations, continued this work, affirming the need to transmit, from an early age, the values of peace, tolerance, and fraternity, so that we may live together with one another, and not against one another.

Spiritual evening

Every year since 1919, members of the Alâwiyya-Darqâwiyya-Shâdhiliyya Sufi Order gather for Ihtifâl, a fraternal gathering that unites the community of brothers and sisters around a shared spiritual emotion.

On the occasion of the fiftieth anniversary, they will welcome the new year together during a vigil marked by contemplation and punctuated by the melodies of Samaâ, Sufi songs that awaken the heart.

Men and women unite their voices to perform the mystical poems of Sheikh al-Alâwi and other masters of this noble spiritual tradition.

Through samaâ, participants express their love for God and the Prophet and their trust in the divine Presence, and celebrate the universal values of peace, love, and brotherhood. Members of the Mawlawiyya order in Turkey and several Sheikhs and dignitaries from various Sufi tariqas (orders) also join in this celebration as a sign of unity and spiritual sharing.

AISA
ONG Internationale

AISA INTERNATIONAL NGO

AISA International NGO is a non-governmental organization with special consultative status with ECOSOC (UN Economic and Social Council). It is recognized for its expertise on issues related to the Culture of Peace, gender equality, social development, spirituality, the environment, governance, and ethics.

It draws its values from the universal wisdom of the Alawiyya Sufi Order, which was recognized in 2013 by UNESCO as "a school of tolerance and interreligious conviviality." (UNESCO, 191 EX/32, 2013). Within the framework of the 17 SDGs decreed by the UN for 2030, AISA International NGO contributes to the advent of peaceful and inclusive societies by implementing mediation as a process of Living Together in Peace, and by ensuring social cohesion, respect for human rights, and the maintenance of cultural diversity.

AISA International NGO, led by its Honorary President Sheikh Khaled Bentounes, is the initiator and promoter of the International Day of Living Together in Peace (IDLTP), unanimously adopted by the 193 Member-States of the UN on December 8, 2017 (A/RES/72/130). It works to create international momentum to introduce education for a Culture of Peace into school curricula.
